

5000kw container generator

What are the different types of containerized diesel generator sets?

The containerized diesel generator sets produced by Dingbo Electric Power are divided into standard and silent types, using a standard container structure box with built-in diesel generator sets and dedicated complete sets of equipment and accessories.

What are the performance characteristics of container diesel generator sets?

Performance characteristics of container diesel generator sets: 1. The box adopts a humanized design, with doors on both sides and built-in maintenance lights for easy operation and maintenance. 2. Flexible and versatile in size, with strong environmental adaptability.

Why should you choose a container diesel generator set?

3. Convenient transportation and cost saving. The appearance of the container diesel generator set is in the standard size of a container, and there is no need to book a dedicated container space during sea transportation, greatly saving transportation costs. 4.

Who is dingbo generator?

Since 1982, Dingbo Generator has been a generator set manufacturer qualified by the "National Internal Combustion Engine Quality Supervision and Inspection Center". The product quality has passed the ISO9001 quality system standard certification. And obtained the qualification certificate for self-operated import and export.

Why should you choose dingbo generator?

It has excellent frequent lifting ability and rainproof performance, large space, complete supporting facilities, and very convenient maintenance. Since 1982, Dingbo Generator has been a generator set manufacturer qualified by the "National Internal Combustion Engine Quality Supervision and Inspection Center".

Motor load = 5000kW at 0.72 pf lag Cos ... The droop setting of each generator is 4%. If the load to be shared by both the generators is 1000kW, Calculate the load sharing by generators A and B, if the original frequency at no-load is 62Hz. ... 4.2) Question: In a container ship, a 3-?, delta/ delta connected 6600/ 440V, 60Hz transformer is ...
