

### Are used EV batteries available in ASEAN?

This report has provided future projections of available used EV batteries in ASEAN. Its magnitude is compared with the estimated need for stationary use for variable renewable energy sources. The report has also provided policy implications for ASEAN countries towards facilitating the reuse of batteries from EVs.

#### Which countries are responsible for EV battery reuse in ASEAN countries?

This chapter presents the electric vehicle (EV) battery reuse and/or recycling policies of the European Union (EU), the United States (US), Japan, and China. These are offered to draw implications for EV battery reuse policymaking in ASEAN countries. 2. Europe 2.1. EU Directive

#### Should ASEAN create a value chain for reusing waste batteries?

Meanwhile, the gap between the stationary usage for flexibility adjustment and supply from used EVs will be substantial - the need for stationary backup batteries for the Indochinese Peninsula and the Malay Peninsula would be 500-600 GWh. This gap implies the importance for ASEAN countries to create the value chain of reusing the waste batteries.

### Can Thailand be a new production base for EV batteries?

Thailand can be a new production base for original equipment manufacturer batteries for export too. The application of battery energy storage systems in Thailand is in its infancy, and there is no official plan and target by the government with regard to battery reuse at present. Meanwhile, EV battery production is growing in Thailand.

### Do ASEAN Power Systems need backup batteries?

According to an analysis on ASEAN power systems (focusing on the Indochinese Peninsula and the Malay Peninsula) by ERIA (2021), it is estimated to need backup batteries of 500-600 GWhwhen VRE accounts for 40% of the generation mix in 2040. A substantial gap is likely to exist.

#### Is electric vehicles a viable option in ASEAN?

Based on the 7th ASEAN Energy Outlook,transportation is the second largest energy-consuming sector with around 35% (2020) in the region, with oil products continuing to be the highest consumed. To reduce emissions and oil dependency, the deployment of electric vehicles is considered as viable optionc.

the biggest ASEAN cities. In many ways, the catalyst for these developments has been China's bold stated ambition of net zero by 2060, which Japan and Korea following with their own net zero goals. In transport, the development of Electric Vehicles (EVs) is the most significant development, with significant capital being committed to the

The ASEAN Electric Vehicle Market size is expected to reach USD 1.51 billion in 2025 and grow at a CAGR of 32.73% to reach USD 6.23 billion by 2030. ... An electric vehicle uses a large traction battery pack to power the electric motor ...

The business scope of the joint venture includes the design, development, validation and manufacturing of battery modules and battery packs, and battery management systems for a wide range of vehicles and energy storage systems. NV Gotion plans to build a lithium-ion power battery pack production line in the Eastern Economic Corridor of Thailand.

One Stop Solar Energy Solution Provider. Qianhang provides Advanced Power: 76.8V 600AH Lithium Battery Pack with Built-in BMS for Sanitation Vehicle Sweepers with many years of experience. Support OEM/ODM service. ... Electric Vehicle Battery. Golf Cart Battery; Airport GSE Battery; ... Marine/Boat Battery. LifePO4 Battery Charger. Lithium ...

ASEAN 110 107 91 77 1 2 6 11 111 109 97 87 0 50 100 150 2023 2025 2030 2035 China 96 96 81 59 ... the conversion of lead -acid batteries to lithium ion batteries will increase mainly in Europe. However, the use of lead-acid batteries for ... For motorcycles: Global battery demand forecast (starting and electric vehicle auxiliary batteries ...

3rd ASEAN Battery & Electric Vehicle Technology Conference (ABTC) 2025 2nd ASEAN Battery & Electric Vehicle Technology Conference (ABTC) 2024 Check out our Industry Members! 25 April. BATTERY SAFETY & INNOVATION CONFERENCE 2025. 830am - 530pm - NOVOTEL SINGAPORE ON STEVENS 28 STEVENS ROAD SINGAPORE 257878 THE POLARIS, ...

Global trade flows for lithium-ion batteries and electric cars, 2023 Source IEA analysis based on data from Benchmark Mineral Intelligence and EV Volumes. Notes EV = electric vehicle; RoW = Rest of the world. The unit is ...

It also details analyses from cell to the final battery pack, including supply chain analyses, market forecasts, and technology trends for all battery pack components used in the automotive industry. "Currently, the global ...

SINGAPORE, Aug 23, 2024 - (ACN Newswire) - The 2nd ASEAN Battery Technology Conference (ABTC) returned and strengthened the commitment to develop a close knitted battery development ecosystem among the Southeast Asian countries. Hosted in Singapore this year by the Singapore Battery Consortium at Singapore at the Shangri-La Rasa Sentosa between 21st ...

Singapore-based, NEU, who are specialists in LFP battery recycling will ensure a steady supply of recycled battery material, like lithium carbonate and other metals are made available to GMSB"s Hydrogen-Electric ...

While focus is given to the electric vehicles, the same estimated variables from the comparable internal combustion engine (ICE) vehicles categories and classes must be given as benchmarks or references of the analysis. 3.2. Potential global warming potential and environmental impacts of electric vehicles and batteries in ASEAN

Indonesia has launched Southeast Asia"s first electric vehicle battery plant, marking a significant milestone in its ambition to become a leading global producer of EV batteries. ... have invested in Indonesia and their EVs are already in the market. Moreover, the country is also developing lithium refineries and anode material production ...

The ASEAN Countries Electric Vehicle Battery Manufacturing Equipment Market size is expected to reach USD 22.54 million in 2025 and grow at a CAGR of 19.83% to reach USD 55.69 million by 2030. ... lithium-ion battery pack prices plummeted by 14% from the prior year, settling at USD139/kWh. Beyond this price dip, countries like Thailand ...

The Southeast Asia Battery Market is expected to reach USD 3.04 billion in 2025 and grow at a CAGR of 6.77% to reach USD 4.22 billion by 2030. Tianjin Lishen Battery Joint-Stock Co. Ltd, FIAMM Energy Technology S.p.A., C& D Technologies Inc., BYD Co. Ltd and East Penn Manufacturing Co. Inc. are the major companies operating in this market.

Bali, 9 May 2023 - Building vibrant ecosystems and strengthening partnerships among key players in the sectors of battery and electric vehicles (EV) are some of key outcomes of the 1st ever ASEAN Battery and Electric Vehicle Technology Conference (ABEVTC) aims to achieve, which officially launched today in Bali and will run till 11 May. Co-organized by the Singapore ...

Electric Vehicles in ASEAN Countries March 2023 This chapter should be cited as ERIA Study team (2023), "Total Cost of Ownership and Tipping Point of Electric Vehicles in ... PHEVs and EVs due to the estimated reduction in the cost of lithium-ion batteries. 60 Figure 3.1. Vehicle ost Assumptions (\$) ... The figures include the cell plus pack ...

ASEAN new vehicle sales: Sales in major six countries were 2.41 million units in 2020, down by 28.6% y/y ... Thailand and Indonesia aim to be regional EV (electric vehicle) production hubs as well as build manufacturing facilities for EV batteries. ... The Indonesian government intends to integrate the EV battery industry from mining to lithium ...

A surge in electric vehicles would improve air quality levels across the region as well as supporting regional economic growth. ASEAN investment growth related to electric vehicles is estimated at USD 6 billion by 2030, ...

The business scope of the joint venture includes the design, development, validation and manufacturing of

battery modules and battery packs, and battery management systems for a wide range of vehicles and energy storage ...

In December 2022, Chinese lithium battery manufacturer's group company Gotion Singapore agreed to form a joint venture (JV) with a pair of Thai power companies, Arun Plus Company and Global Power Synergy Public Company, ...

combustion engine into Zero Emission Vehicle including Electric Vehicle; and addressing. the financing agenda to support the development of the electric vehicle ecosystem in the region. 5. PROMOTE cooperation and partnerships with ASEAN's external partners through various ASEAN-led mechanisms, international organisations, and

Malaysia, Thailand and Singapore Collaborations and Expansion to other Southeast Asia Countries. The 2nd ASEAN Battery Technology Conference (ABTC) returned and strengthened the commitment to develop a close knitted battery development ecosystem among the Southeast Asian countries. Hosted in Singapore this year by the Singapore Battery ...

5 2050.1 Indonesia also intends for alternative-powered vehicles to account for 20% of total vehicle production by 2025.2 As Table 1.3 shows, Indonesia is electrifying both four-wheeled and two-wheeled vehicles. In January 2019, Indonesia released an automotive industry roadmap regarding the number of

A computer-generated image of the lithium-ion polymer battery pack used in the Hyundai Ioniq Electric. Lithium-ion batteries offer several advantages over other technologies like nickel metal hydride batteries, such as lighter weight and faster charging times. ... a subscription-based electric car-sharing company, has promised a 1,000-EV strong ...

The ASEAN Countries Electric Vehicle Battery Manufacturing Market is expected to reach USD 0.26 billion in 2025 and grow at a CAGR of 20.04% to reach USD 0.66 billion by 2030. Samsung SDI Co. Ltd., VinES Energy Solutions Joint Stock Company, Contemporary Amperex Technology Co. Ltd (CATL), LiRON LIB Power Pte Ltd and GS Yuasa Corporation are the major ...
