

6 March, 2024 | Gothenburg, Sweden - NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery factory in Torslanda, Gothenburg. Located near Volvo Cars' manufacturing plant, the start of construction marks a significant milestone in the Western Sweden region's ...

Join Our Team: Project Manager - BESS Projects The energy landscape is shifting fast, and we're right in the middle of the action. As grids evolve, battery energy storage (BESS) is taking ...

We offer site-built accumulators, tanks, and project-based maintenance for energy storage and industrial needs. Our in-house workshop gives us full control over both quality and delivery. ... Head Office Sweden Teknikvägen 3 444 95 Ödsmål Poland Alfonsa Hoffmanna 4 86-140 Gródek Shortcuts. Job Openings. Cookies.

General Information . Gothenburg is a port city with a strategic location between Oslo and Copenhagen. It has a population of around 533 000 and is Sweden´s second largest city. 70 % of Scandinavia´s total industrial capacity is located within a 500-km radius of the Gothenburg region and 30% of Swedish foreign trade passes through the Port of Gothenburg, which is the largest ...

Mission/Vision of the company. Feeding the city, building the future. Internship. As a Junior Sustainability Coordinator, you will primarily be responsible for handling coordination duties and providing content for one of the company's ongoing Food, Water and Energy projects.

ERGO is leading the scientific investigations in two deep drilling project with budget of 1.3 million EUR, partly funded by the Swedish Energy agency. Thermal energy storage. ERGO is developing novel solutions for seasonal thermal energy storage, since heat is cheap and abundant in the summer, but expensive to produce and in high demand during ...

CNTE's Commercial and Industrial (C& I) energy storage system, now operational in the city, offers critical services including frequency modulation, load leveling, and energy conservation for businesses. This system optimizes ...

Polar Bess specializes in advanced battery energy storage systems, enhancing grid resilience and promoting renewable energy. Established in 2024, we deliver scalable solutions for the evolving energy sector, driving sustainable ...

The Gothenburg Port Authority is responsible for coordinating this security work. Security work is regulated

to a large extent by the operating regulations for the Energy Port. A focus on health and safety at the Energy Port. The Energy Port sees the transportation and storage of a large number of energy products such as petrol and heavy oil.

SEEL Swedish Electric Transport Laboratory, is a collaboration between Chalmers and RISE for research and development of electromobility. SEEL has three test facilities: Gothenburg, Nykvarn and Borås. ... Energy Storage Testing at SEEL ... Our facilities Research at SEEL Project IPCEI Batteries RISE Research Institutes of Sweden. RISE is ...

6 March, 2024 | Gothenburg, Sweden - NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery factory in Torslanda, Gothenburg.

Polestar, the Swedish automotive innovator, is set to overhaul the electric vehicle (EV) landscape with a pioneering large-scale Vehicle-to-Grid (V2G) project in Gothenburg, Sweden. The initiative, backed by funding from ...

As an employee of RWE Renewables Sweden, you become part of a larger goal: to achieve a green energy transition and secure a better world for future generations. We have over 160 employees working on the development, ...

146 boreholes used as storage from summer to winter using excess heat from industry via district heafing Summary of the project: Backadalen, located in Gothenburg, Sweden, is one of the biggest housing cooperafives in Sweden with almost 1000 apartments. The buildings are from 1969 and in 2019 a ground source heat pump system was finalized

TN Sweden is a leader in the electromobility sector, committed to driving sustainable energy storage solutions. About the Position: The Senior Project Manager, Battery Systems will oversee our battery systems development projects.

We're building a first-of-its-kind R& D center and Li-ion battery Gigafactory in Gothenburg, Sweden, equipped with the expertise and technology to craft state-of-the-art batteries. Aiming for optimal integration with our automotive ...

A 70MW battery storage project being developed by Ingrid Capacity, set to be the largest in the country when online in H1 2024. Image: Ingrid Capacity. Some 100-200MW of grid-scale battery storage could come online in Sweden this year, local developer Ingrid Capacity told Energy-Storage.news.

14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region. Developer and optimiser Ingrid Capacity and energy storage owner-operator BW ESS have been ...

Novo Energy is growing rapidly, with plans to double its headcount from 250 to 500 by the end of the year. Recruitment efforts will intensify in 2025, focusing on manufacturing roles to prepare for start of production in 2026. ...

At its Gasendal biogas plant, Gothenburg's municipal energy company Göteborg Energi has the potential to be the first in Sweden to implement BECCS. The separation of carbon dioxide is already part of the process of producing biogas, meaning that a stream of pure carbon dioxide is already available.

Sweden is a world-leading country when it comes to bioenergy. Currently, almost 54.6 percent of Sweden's energy production comes from renewable sources. Sweden is also the first country in Europe to meet the renewable energy targets set by the EU for 2020. Renewable Energy Companies in Sweden also played a huge role in this.

Romina Pourmokhtari, Sweden"s Minister for Climate and Environment, officially inaugurated the largest energy storage park in the Nordic region. The initiative, led by Ingrid ...

The Swedish solar cell market is still limited, with solar energy accounting for around 1 per cent of the total energy generated. Wave power In the transition to a sustainable society, wave power may be an important technology in the future, but it is still relatively undeveloped - both in Sweden and abroad.

Our Facility & EPCM team consists of highly collaborative construction engineers and specialists with experience from complex projects in Sweden and across the globe. Together they work toward building the world"s most sustainable ...

Some 200MW of grid-scale BESS is set to come online in Sweden this year according to Flextools, including a 20MW project deployed by Alfen at a wind farm operated by Vasa Vind, anno u nced last week. Energy-Storage.news" publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 20-21 February 2024. This year it is ...

It"s a completely new business unit that will offer energy storage and charging-related technologies and services which form the connective tissue between our cars, our customers" lives, the efficient use of energy and society at large. ... the local grid company in our Swedish hometown of Gothenburg, we"re now launching one of the first ...

Bluetti launches energy storage system with up to 154.8 kWh capacity US-based Bluetti has developed a new energy storage system (ESS) that offers 60 kW of output by connecting up to three systems in parallel. It ...

Cooperation aims to test renewable fuels at the Rya CHP plant located in the energy port of Gothenburg; First phase with Göteborg Energi is to validate 3D-printed burners at the Rya plant By 2030, the ambition is

that all district heating in Gothenburg, Sweden, will be produced by renewable or recovered energy sources.

It comprises 132 apartments in Guldheden, next to the Chalmers University of Technology campus area in Gothenburg. Reusing bus batteries for energy storage. The energy storage system in the Viva housing association is part of housing company Riksbyggen's Positive Footprint Housing research project.

SE-412 96 Gothenburg Sweden Telephone + 46 (0)31-772 1000 Cover: Artistic molecular solar thermal energy storage driven castle, inspired by Howl's moving castle, designed by Mariza Mone. Chalmers Reproservice Gothenburg, Sweden 2019

Graduate School in Energy System (FoES) is based on the Energy Systems Programme, with a similar concept but a different structure, particularly in how research projects are managed. The programme was highly successful, ...

Through smart charging and energy storage, the project will enable the charging of more electric vehicles and at the same time contribute to a more stable electricity network that makes better use of renewable energy. The project focuses primarily on system solutions for large-scale electrification of buses in public transportation.
