

Fiji's new outdoor power supply

How can Fiji achieve a reliable and affordable power supply?

To achieve the goal of providing reliable and affordable power supply for whole Fiji and to deliver climate agenda, a large investment effort for all the subareas generation expansion, transmission and distribution reinforcement has to be taken. Scenario-1: comprises of all hydro power plant proposals which are expected to be commissioned by 2031.

What are some examples of wind energy projects in Fiji?

These are mainly mini/micro hydro schemes, solar energy for lighting (solar home systems), water pumps, solar hot water system, solar video, television, refrigeration and steam plant for drying copra etc. The DOE has also installed numerous wind monitoring stations at selected sites in Fiji to assess the potential for wind power generation.

Will Fiji be able to generate wind power?

The DOE has also installed numerous wind monitoring stations at selected sites in Fiji to assess the potential for wind power generation. If these sites are found to be viable, potential investors and funding for wind power generation will be sought for development.

Does Fiji need geothermal power?

Fiji is one of those which can meet the energy needs by geothermal generation. In context of this, World Bank has also agreed to provide technical assistance to identify 2-3 major sites for geothermal-based power generation in Fiji (IRENA, 2015).

Is pumped hydro a viable option in Fiji?

For longer term storage (greater than eight hours) pumped hydro remains the only viable technology (Arena, 2018) and also on-grid solar PV installations are slowly gaining popularity in Fiji. Distributed solar PV systems work well with pumped storage.

Where can geothermal power be generated in Fiji?

In context of this, World Bank has also agreed to provide technical assistance to identify 2-3 major sites for geothermal-based power generation in Fiji (IRENA, 2015). As per "University of South Pacific, Suva, Fiji" there is a potential in the range of 38MW to 70MW which can contribute 266MU to 491MU per year (considering PLF 80%).

Canberra-based renewable energy company EPC Solar has made its first foray overseas, launching into Fiji where it says it has a pipeline of more than 40 potential solar and energy storage projects.

Perfect as a food and drink stall or simply as a place to escape from the rain or fierce Fiji sun, this gazebo is a great addition to your next outdoor entertaining event. White powder-coated steel tube poles. Sturdy steel
