

How much does electricity cost in Saint Lucia?

The 2015 electricity rates in Saint Lucia are \$0.34 per kilowatt-hour (kWh),in line with the Caribbean regional average of \$0.33/kWh. Like many island nations,Saint Lucia is almost 100% reliant on imported fossil fuels for electricity generation,leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

What is the energy potential of Saint Lucia?

Saint Lucia is a volcanic windward island, with large tech- nical potential for geothermal, wind, and solar renewable energy generation, as well as use of solid waste generated by residents. Little technical potential for biomass or hydroelec- tric generation exists on the island.

How much geothermal potential does Saint Lucia have?

The volcano that sits in the middle of Saint Lucia provides vast geothermal potential. Conservative estimates indicate more than 30 MWof technical geothermal potential; others estimate 170 MW. Estimates also show that development of this geothermal resource would likely be economically feasible.

Can a biomass plant be built in Saint Lucia?

A biomass plant requires large tracts of agricultural land and is not economically feasible. Rivers and waterfalls on Saint Lucia do not have a base flow rate sufficient to power water turbines. The most promising hydroelectric spot is the Roseau Reservoir, which can supply 150 kilowatts (kW).

Are battery electricity storage systems a good investment?

This study shows that battery electricity storage systems offer enormous deployment and cost-reduction potential. By 2030,total installed costs could fall between 50% and 60% (and battery cell costs by even more),driven by optimisation of manufacturing facilities,combined with better combinations and reduced use of materials.

The cost of a solar battery system is dependent on many factors, including the brand of the battery, the batteries chemical composition, storage capacity and it's life cycle. On average, a complete solar storage system can cost anywhere between £3,000 to £9,000 depending on the factors mentioned above.
