Macedonia s new energy storage

Why did the new government of North Macedonia need securing energy supplies?

Firstly,the Ministry of Energy, Mining, and Mineral Resources needed to address a critical issue: securing energy supplies for the winter. Sanja Bozinovska stated that the new Government of North Macedonia inherited a challenging situation in the energy sectorand had to make every effort to ensure a reliable energy supply throughout the winter.

Will North Macedonia become self-sufficient in electricity production?

The vision of the new ministry is for North Macedonia to become self-sufficient in electricity production. According to Bozinovska, it is crucial for the country to focus on domestic electricity generation, as it currently lacks new renewable energy capacities.

What is the new government of North Macedonia?

Seven months ago, the new government of North Macedonia took office, marking the kickoff for the establishment of the Ministry of Energy, Mining, and Mineral Resources. According to the Minister, Sanja Bozinovska, the ministry has been built from the ground up.

Is North Macedonia a sustainable country?

"The huge sustainable energy potential of North Macedonia, especially through wind and solar energy, is an enormous opportunity for the country, which is important in the advancement of the Green Agenda", emphasized Holger Schrö der from the European Commission's Directorate for Neighbourhood Policy (DG NEAR).

Is North Macedonia a 'flagship investment' in the Western Balkans?

Both projects have been identified as Flagship investmentsunder the Economic and Investment Plan for the Western Balkans. North Macedonia's efforts to decarbonise the energy sector received another boost with the signing of a grant agreement on 18 March 2024 to increase the capacity of Bogdanci Wind Park.

Will North Macedonia get a grid connection?

Like other countries in Southeast Europe, North Macedonia is flooded with investor applications for the grid connections of new solar and wind projects. The transmission system operator (TSO) MEPSO has a huge waiting listfor the preliminary grid connection. In her words, the investors want to connect a total capacity of 9,000 MW.

At the annual Conference of Parties (COP) last year, a historic decision called for all member states to contribute to tripling renewable energy capacity and doubling energy efficiency by 2030.. A year later at COP29 in ...

24 June 2024 - New Minister of Energy, Mining and Mineral Raw Materials Sanja Bozinovska indicated that
