

Nordic Uninterruptible Power Supply Procurement Project

What is the Nordic Innovation Project?

Nordic Innovation project - Status on on-shore power supply in The Nordic Area, both existing and planned. Dr. Fabio Ballini, Assistant Professor, World Maritime University, will present the new Nordic Innovation project providing a status on on-shore power supply in The Nordic Area, both existing and planned.

What is going on in the Nordic region?

Photo: Port of Gothenburg. Existing COLD IRONING infrastructure in the Nordic Region: New on-shore power supply (OPS) plants are being prepared in Kristiansand. Norway is leading in terms of electrification on the roads and for domestic ferries and cargo ships. A general high demand for further capacity being installed exists.

What is onshore power supply for ships?

The Conference title is Onshore power supply for ships - the way to a greener future. On this occasion several partners from this project participated and Dr. Fabio Ballini, World Maritime University Sweden, on behalf of our consortium presented the outcomes from this research and the conclusions from this work.

Which EU ports have been funded by the EU Infrastructure Fund?

The ports of Aarhus and Copenhagen have in their capacity as essential EU ports been granted funding of some DKK 60 million from the EU Infrastructure Fund, Connecting Europe Facility (CEF). The Port of Esbjerg has in February 2021 taken OPS into use and thereby providing electricity for the large offshore construction vessels.

What is a shore-side power supply?

Ericsson, P., & Fazlagic, I. (2008). Shore-side power supply - a feasibility study and a technical solution for an on-shore electrical infrastructure to supply vessels with electrical power while in port.

Do Danish ports offer onshore power?

In general, most Danish ports can offer onshore power to some extent and the ports are interested in expanding the possibility for OPS for more ships. Some ports are therefore now investigating new OPS for more ships in the ports. It is easier to offer onshore power for ships that regularly call a port.

Supplementary Specification to PIP ELSAP04 for AC Uninterruptible Power Supply (UPS) System Page 4 of 16 IOGP S-734 May 2023 IOGP S-734L: Information Requirements for AC Uninterruptible Power Supply (UPS) System (PIP) The IRS defines the information requirements, including contents, format, timing and purpose to be provided by the supplier.

Adopting Uninterruptible Power Supply (UPS) systems is a key driver, particularly in the Nordic data centers,
