

PV module prices

What is the PV module price index - secondary solar market report?

The third annual (2023) PV Module Price Index - Secondary Solar Market report is now available for download. The PV module price index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the EnergyBin exchange.

What is the PV module price index?

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the EnergyBin exchange.

How much does a solar module cost?

All Black and Bifacial modules were \$0.261/Wp and \$0.308/Wp respectively. The PV Module Price Index is a resource for solar professionals to accurately track modules traded within the secondary market. This year's report comes with some key changes to portray more precisely what's happening in the market.

How much does a PV module cost in Europe?

It noted an increase in commercial PV material recyclers and equipment providers from 25 companies in 2017 to 177 companies this year. Each company reported a recycling volume ranging from 1,000 tons per year to 50,000+tons per year. By August, module prices in Europe dropped to EUR0.113/Wp for mono n-type and EUR0.116/Wp for bifacial n-type products.

Do PV modules lose resale value?

For historical secondary market PV module pricing from 2020 through 2023, download the 2023 PV Module Price Index from EnergyBin's Resources portal. Overall, the price index shows that new PV modules don't tend to lose resale value in the U.S. secondary market unless their technology is older, such as Legacy POLY modules.

How much does a resale solar module cost?

For example, N-Type modules by REC listed for resale in May and July pushed up weighted average prices to \$0.411 and \$0.460 respectively. P-Type modules in September increased to \$0.311 as modules by Sirius PV, Solar4America, and Panasonic were remarketed. The same price increase was present in P-Type Bifacials for the month of December.

A range of factors related to import duties and changing tax rates in China has driven up US module prices. Image: Luke Price via Flickr. US solar module prices are increasing due to unexpectedly ...

Overall, data suggests the upward trend in global solar development is not phased by political ideology regarding climate change. Solar is now the lowest cost option thanks to low module prices compared to other

...

In a new weekly update for pv magazine, OPIS, a Dow Jones company, provides a quick look at the main price trends in the global PV industry. FOB China: The Chinese Module Marker (CMM), the...

Solar module prices in Europe rose this week for the first time in months, says Bart Wansink, CEO of Search4Solar, a European sales platform for PV products. He tells pv magazine that ...

The Chinese Module Marker (CMM), the OPIS benchmark assessment for TOPCon modules from China and mono PERC module prices held steady at \$0.115 per W and \$0.105/W, respectively.

The domestic prices of China mono-grade polysilicon gained 1.89% week-to-week at CNY33.625 (\$4.74)/kg while mono PERC M10 wafer rose 2.13% at CNY0.144/piece over the same period. Amid intense competition amongst module sellers and pressure to clear inventories, module prices would continue to weaken towards the end of the year, the source added.

FOB China market. The Chinese Module Marker (CMM), the OPIS benchmark assessment for TOPCon modules from China was assessed at \$0.093/W Free-On-Board (FOB) China, down \$0.002/W week-to-week ...

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the EnergyBin exchange.

The cost of a single solar module can vary depending on its size, efficiency, and manufacturer. To get the price, explore our solar products. Which solar panel to buy for home? The choice of solar panel for your home depends on several factors such as your energy needs, roof space, and budget. You should consider factors like efficiency ...

FOB China: The Chinese Module Marker (CMM), the OPIS benchmark assessment for TOPCon modules from China was stable at \$0.085/W Free-On-Board (FOB) China, with price indications between \$0.080-0.090/W.

Full black modules, reintroduced in the price index after a hiatus since April 2022, demonstrate a slight price premium. Historically, these modules commanded no price difference compared to black-and-white products. However, customer demand for aesthetics in residential installations has driven a price difference of several euro cents per watt ...

As solar module prices continue to fall, pvXchange founder Martin Schachinger explains how price pressure could increase in the weeks and months to come. April 22, 2024 Martin Schachinger ...

She explains why solar module prices may increase soon, suggesting that Tier 1 modules prices could reach

PV module prices

\$0.14-\$0.15/W by the end of this year, and discusses how consolidation is materializing ...

Price Trend: In China's centralized utility-scale solar PV market, price quotes for 182mm to 210mm TOPCon modules have stabilized at around RMB 0.69/W. Meanwhile, distributed solar system module prices declined to RMB 0.730/W this week. Bifacial M10 TOPCon modules: Leading manufacturers are quoting in the RMB 0.66-0.75/W range.

IRENA presents solar photovoltaic module prices for a number of different technologies. Here we use the average yearly price for technologies "Thin film a-Si/u-Si or Global Price Index (from Q4 2013)". IRENA (2024); ...

Solar module prices may approach the threshold of \$0.10/W by the end of 2024 or eventually in 2025, according to Tim Buckley, director of Australia-based think tank Climate Energy Finance (CEF ...

For example, Aiko modules saw a 16% price drop from January to February 2025, while Jinko prices rose by 3%." Module prices: a tale of two trends. February's module pricing revealed a split narrative, with declines in monofacial categories and gains in bifacial and full black segments: Monofacial modules: N-type: Prices fell to EUR0.100/Wp ...

Find here Solar Module, Solar PV Module manufacturers, suppliers & exporters in India. Get contact details & address of companies manufacturing and supplying Solar Module, Solar PV Module, Rooftop Solar Photo Voltaic Module across India.

High-efficiency solar modules are becoming scarce, prompting some retailers to stockpile in anticipation of rising prices, says Martin Schachinger, founder of pvXchange . He expects module ...

Market Analysis April 2024 - Solar module prices hovering at all-time lows. A growing number of PV module manufacturers are threatening to shut down their production facilities in Europe due to the ongoing low-price trend. ...

Taiwanese research institute EnergyTrend has reported that solar module prices in China are on a "consistent uptrend.". Its latest report said tunnel oxide passivated contact ...

As of January 2025, solar module prices have remained relatively stable across all categories, including ultra-high-efficiency products and other module classes. While there have been ...

The Chinese Module Marker (CMM), the OPIS benchmark assessment for TOPCon modules from China was assessed at \$0.096/W unchanged from the previous week while Mono PERC module prices were ...

On similar lines, solar module prices (mono PERC) in India also increased from August 2020 to November 2021 by 40%. Module price trends . Source: PV InfoLink. Key reasons for increasing solar module prices in

India and abroad are: Supply chain disruptions - Polysilicon is the critical raw material in solar PV manufacturing. Its reduction in ...

Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market. ...

China: The Chinese Module Marker (CMM), the OPIS benchmark assessment for TOPCon 600 W modules from China, rose 1.19% to \$0.085/W Free-On-Board (FOB) China, with price indications ranging...

Global module prices are unlikely to fall much further and could begin to stabilise, the chairmen of two of China's largest PV manufacturers, Trina Solar and JinkoSolar, have said.

CN: Price: Photovoltaic Module: 166 Single Crystal data was reported at 0.760 RMB/W in Aug 2024. This stayed constant from the previous number of 0.760 RMB/W for Jul 2024. CN: Price: Photovoltaic Module: 166 Single Crystal data is updated monthly, averaging 1.744 RMB/W from May 2021 (Median) to Aug 2024, with 40 observations.
