Photovoltaic cell module 440wp

What is a Longi 440w solar panel?

Silver 35mm frame, white backsheet and MC4 connectors w/1400mm cable. LONGi 440W solar panels are among the most powerful PV modules on the market. The LONGi HPH Series combines High Efficiency, Low LID Mono PERC cells with Half-cut Multi Busbar Technology to improve performance and boost production.

Are 440w solar panels good?

In spite of the high power output of this model,440W solar panel price is quite low. High conversion efficiency up to 18.8%. Excellent performance in low irradiance conditions, such as dawn, dusk and cloudy days.

What makes Longi 440w a good solar cell?

Check LONGi 440W datasheet for more technical details. High-quality assurancedue to stringent quality control. Solid PID resistance ensured by solar cell process optimization and careful module BOM selection. Slow power degradation enabled by Low LID Mono PERC technology: first year - 2%, and then - 0.55% every year.

How much power does a solar module have?

Therefore, these compared to the original power rate of the solar module. modules are unequivocally among the most e ective in their category) Irradiance 1000 W/m, temperature of modules 25 C, spectrum AM 1.5. 144 pcs. Warranty is applicable by UAB Solet limited warrenty terms. Safety factory 1,5 is included.

How do solar modules generate electricity?

(Solar modules generate electricity not only from direct sunlightbut also from the sun's rays re ected from the earth's surface. E ective use of whole module Half-cut solar cells surface,up to 4,3m /pc.) (All modules are tested.
