

Portable mobile power bank with replaceable battery cells

Do power banks have replaceable batteries?

While there is no lack of options for power banks on the market, very few offer the option of replaceable batteries. Why would you want replaceable instead of sealed? Sealed power banks mean when the batteries lose capacity in 4-5 years, the item becomes disposable.

Should you buy a portable battery or power bank?

Watching your phone or tablet steadily run out of power when you're nowhere near an outlet is stressful. But there's an easy solution: a portable battery or power bank. These are available in many sizes and capacities and can include handy features like fast charging and extra ports.

What features should you consider when buying a portable power bank?

Pass-through charging is another feature to consider; with it, you can charge your device and a portable power bank simultaneously. That's convenient if both your phone and backup battery are running on empty.

Why would you want a replaceable power bank instead of sealed?

Why would you want replaceable instead of sealed? Sealed power banks mean when the batteries lose capacity in 4-5 years, the item becomes disposable. If you have additional electronics such as headlamps or flashlights that can use 18650 batteries, a modular system is much more flexible and efficient than sealed power banks.

What is a 10000 mAh battery?

10000mAh Capacity with Replaceable Batteries: Includes 2x 5000mAh lithium-ion batteries for extended usage. Easily replace the batteries for uninterrupted power on the go. 23W Fast Charging with USB-C PD Output: Supports Power Delivery technology to deliver rapid and efficient charging for your devices.

Should I use a modular power bank or a sealed power bank?

If you have additional electronics such as headlamps or flashlights that can use 18650 batteries, a modular system is much more flexible and efficient than sealed power banks. I love pairing these with an 18650 headlamp such as the Skillhunt H03 or Wowtac A2S.
