

Portable power bank 4kWh high power

What features should you consider when buying a portable power bank?

Pass-through charging is another feature to consider; with it, you can charge your device and a portable power bank simultaneously. That's convenient if both your phone and backup battery are running on empty.

Which power bank is best?

All of the power banks on this list passed our testing, traveling with us on the road and powering our devices at home. Anker is the best in part because it packs more power into its batteries at a lower weight. Its batteries charge faster than competitors. Its small Anker Nano battery has the best power-to-weight ratio of any battery on our list.

How do power banks compare?

We also compare power banks based on their power-to-weight ratio, which tells us how much battery life you get for the extra weight you're forced to carry. We've got power banks for power users that give you detailed information about the devices you're charging, or simple magnetic power banks than smile while your iPhone charges.

Should you buy a portable battery or power bank?

Watching your phone or tablet steadily run out of power when you're nowhere near an outlet is stressful. But there's an easy solution: a portable battery or power bank. These are available in many sizes and capacities and can include handy features like fast charging and extra ports.

How many devices can a 10K power bank charge?

Like the Anker power bank, the INIU 10K power bank is slim and compact. One of the biggest highlights of this power bank is the ability to charge up to 3 devices at a time. There are 2 USB-A ports on board along with a USB-C port which acts as an input and output port. So, this power bank is handy if you want to charge multiple devices at a time.

What are the main features of a portable power station?

Most portable power stations have main common features (such as a battery and ports to pull power from that battery). However, port options, battery sizes, UPS ability, and recharging ability are some features that could vary from product to product.
