How many solar panels are installed in Ile de Romainville?

Built on the southern half of Ile de Romainville, the Solar Farm comprises of almost 15,000 PV panels installed over an area of about 50,000 m². It has the capacity to produce 7GWh of electricity yearly, which can meet the electricity needs of approximately 2,000 homes.

Over the past two years, we've tested 62 different outdoor lights (you read that right) including solar pathway, smart, spotlights, lanterns, wall-mounted, and string lights. We became solar light experts, if we do say so ourselves. We put outdoor solar lights to the test in The Lab, where we simulated hail storms and filmed the lights overnight to see if they truly stayed on ...
