### Slovak battery storage company

Where will the first battery Gigafactory be located in Slovakia?

The first battery gigafactory in Slovakia will be located in Suranyon a 95-hectare area and will create thousands of jobs. In the initial development stage, it will have a capacity of 20 GWh with the further potential to reach a capacity of up to 40 GWh.

Who is a Slovak technology company?

We are a Slovak technology company providing energy optimization. We are bringing a modern approach to the energy industry that transforms ordinary consumers into active energy market participants.

Why did Slovakia choose a Gigafactory?

Minister of Economy of the Slovak Republic Denisa Saková appreciated the choice of location in Slovakia, adding that in addition to new jobs, the gigafactory will bring cutting-edge technology to the region.

Did Slovakia sign a joint venture agreement with the government?

The government and joint venture have now signed an Investment Agreement. The agreement does not come as a surprise. In November 2023,the companies signed a letter of intent to this effect with the Slovakian government regarding the factory. The partners had already presented the key points of the joint factory in September.

What did the Slovak government do?

The Government of the Slovak Republic, represented by the Ministry of Economy, undertook to provide grants, settle the land, undertake to prepare the building plot, and ensure the connection of the power grid.

BOOSTING THE SLOVAK BATTERY ECOSYSTEM INTO THE NEXT DECADE Discussion on how Slovakia can support Research and Development of batteries as an essential part of the battery ecosystem in the field of energy storage and e-mobility TUESDAY, MAY 11TH, 2021 A SUMMARY OF PERSPECTIVES FROM THE PRIVATE SECTOR, GOVERNMENT, ...

Several companies focused on innovations in energy participated in the successful implementation and certification of Greenbat BESS in Martin. The supplier of battery systems for the project was MTS. It is one of the Slovak leaders in the supply of complex systems that are easily scalable for the storage, distribution and monitoring of ...

The storage will consist of several smaller units (~32-64MW) located in Slovakia (central Europe). Considering energy density, charge and discharge efficiency, life span, and ecofriendliness of devices, the battery storage shall be based on Lithium-ion technology.

The Minety Battery Energy Storage System is a 100,000kW energy storage project located in Minety,
