

St George 24-hour UPS uninterruptible power supply

What are uninterruptible power supplies (UPS)?

Read more Uninterruptible Power Supplies (UPS) ensure continuity of supply by converting the DC voltage from a battery or battery bank to an AC voltage with the requested amplitude and frequency in case of power outages. Depending on application requirements,

Why should you choose St power supplies & UPS?

Depending on application requirements, ST provides a range of solutions to design industrial power supplies and UPS that meet the most stringent reliability, safety and efficiency requirements set for any industrial heavy-duty application.

Do smart devices need an uninterruptible power supply (UPS)?

Many smart devices have built-in battery packs, with modern laptops packing enough cells to last a whole day. However, typical desktop computers, routers, and similar devices still need to be plugged into a power source all the time to work. That's where an uninterruptible power supply (UPS) comes in.

Do you need an uninterruptible power supply?

To protect your likely expensive investment, an uninterruptible power supply is integral. This applies especially to areas that suffer from frequent power outages, particularly rural areas, extreme climates, or places with bad power grids. In order to buy the right UPS, however, you'll need to make sure that some basic requirements are met.

Why do you need an ups?

A UPS provides battery backup power and protection for electronic devices, including: Business: Downtime caused by power outages is frustrating for anyone, but can be financially crippling for a business or organization. Every year, billions of dollars are lost due to downtime caused by power disruptions that could have been prevented by a UPS.

What is the best ups?

Read More » Our pick for the best UPS overall goes to the APC BR1500G Backup Battery. At 1500VA/865W, it can power most devices, including computers, external hard drives, and wireless routers, from a few minutes to several hours, depending on the total connected load.
