

XM-03 Outdoor Power Supply

What is the Alpha xm3-hp cableups®?

Next-Generation Power Supply From ground-breaking transformer design improvements to the integration of the most intuitive and user-friendly interface in the industry, the Alpha XM3-HP CableUPS® incorporates significant technological advancements across the entire power platform and sets the new standard in intelligent power management.

What makes Alpha XM3 hp so special?

The Alpha® XM3.1HP platform continues to incorporate the ground-breaking transformer design of our award winning XM3-HP power supply with significant technological advancements across the entire power technology platform.

What's new with the xm3.1-hptm ups?

These advancements focus on delivering DOCSIS® 3.1 status monitoring and data backhaul, SFP optical monitoring for new fiber deep architectures and AlphaApps+ for advanced battery and power supply performance metrics. The enhanced XM3.1-HP(TM) UPS platform also continues to leverage remote firmware upgrades for the latest power supply features.

What's new with xm3.1-hp?

The enhanced XM3.1-HP platform also continues to leverage remote firmware upgrades for the latest power supply features and enhancements. All of these advancements continue to focus on providing the industry maximum value centered around three primary benefits--improved efficiency, optimized performance and reduced operating costs.

Description. Alpha's XM2 CableUPS ® is the industry's leading power technology. A variety of power ratings make it an ideal match for network architectures worldwide. Advanced product design features include hot-swappable modular inverter and smart display.
